

INTERTEK ACADEMY CRISTAL LEARNING HUB

Intertek Academy now offers Cristal Learning Hub which offers personalised and tailored training to individual workers' needs and roles.

We ensure consistency in training standards across international locations and provide real-time monitoring of training progress.

Within the platform, you will benefit from:

Accessibility Anytime, Anywhere

The platform is designed for flexibility and accessibility, allowing users to access course materials from anywhere, anytime, and on any device.

Self-Paced Learning Experience

It supports various learning styles and paces, offering a personalized learning experience. Users can progress at their own speed and receive tailored feedback.

Off-the-shelf or Customised Trainings

Our off-the-shelf trainings cover a wide range of topics, including food safety, allergen training, prevention of the spread of infectious diseases, legionella prevention, good maintenance practices in swimming pools and more. Custom courses can also be developed and uploaded to the platform.

Data-Driven Analytics of Performance

Data-driven insights and analytics help organizations track performance, identify areas for improvement, and make informed decisions based on data.

Automated Administrative Tools

The platform streamlines administrative tasks with automated features, making it easy to deploy and update training materials.

Enhanced Learner Collaboration

It fosters collaboration and communication among learners, facilitating discussions, group interactions, and a supportive learning environment.

Dive into a seamless, enriching learning experience tailored for your teams..

At Intertek Cristal, we are global leaders in systems and services for brand quality, standards management and related risk management in travel, tourism and hospitality sector.

Our services enable our clients unlock the economic benefits associated with increases in efficiency, quality and productivity.
